

SPACE ENGINEERING PROGRAMME

Let's Build a Satellite!

Help us to Design, Build and Launch a Satellite

This project consists of a programme of exciting activities learning aspects of space engineering including:-

- mechanical design
- electronics design
- software design.

A successful mission would be launching the satellite safely into space and transmitting photos back to earth.

Wednesdays @ 2.30 pm

in HG03

All Welcome

Contact space@adiuvoengineering.com or mroydhouse@harlow-college.ac.uk for more info or pop into the engineering building (HAMEC) for a quick chat about the project!
